Hi Michal,

As promised, here is the draft of the proposed TSCA 8(a) rule for PFAS that is going to OP for OMB/EO 12866 review submission (clean version). I've also attached the redline with the comments and edits that were made to the earlier version – in case that is what you already reviewed. A few very quick notes for you about the draft proposed rule:

-
-

Ex. 5 Deliberative Process (DP)

-

In terms of **expected next steps**, the package goes to OP for review and approval to send to OMB. Under the ADP guidance, OP asks offices to give them at least 15 work days to process the package, and has often completed the process in less time – especially if there are legal deadlines. OP will notify us when it is approved for submission, as well as when they complete the upload to the OMB system (ROCIS).

OMB must accept the package in ROCIS for review – In addition to starting the 90-day review clock, their acceptance will promote the entry that identifies the rule as under EO12866 on the OMB public website ([Click here](#)). To facilitate timely OMB acceptance of the package, as well as to begin earnest planning for the review with OMB, we notify OMB of our submission to OP and when it has been added to ROCIS. We also work with OMB to schedule an introductory briefing for the interagency reviewers, which is usually scheduled to occur the 1st week of OMB review.

Question: Do you want to review and/or approve the materials being prepared for the Interagency Introductory Briefing?

Let Peter or I know if there are any questions.

[Ruth & Kendra – Please include in the eBinder tonight. Thanks.]

- Angela
